Please Login as admin2 and the Password is gallery. If you don't see your album then look in the Corrupted Album 2009. I'll move it for you if you want. Email me at dkcollier@jhppg.com

You should know be logged in as admin2

Creating Albums

Jensen-Healey Preserv

[Advanced Search](#)

[Add Album](#)

[Add Comment](#)

Creating albums is extremely simple, just click "[[add album](#)]". The new album is created. You should see the message "Hey! Add some photos" However, before adding photos, it's usually a good idea to modify some of the album properties, such as title, description, and name. (You may also pick a state to place your car in). Go back to the main Gallery page by clicking the link in the top right by the up arrow. You should see the new album on the main page. To edit the title of the new album, click "[[edit title](#)]" by the current title (for new albums, it defaults to "Untitled"). To edit the description, do the same thing by clicking on "[[edit description](#)]". Finally, rename the album. Click on the link in the sentence "**Hey! Rename this album so that the URL is not so generic**". Once you've done this, you're ready to add photos.

Sort order

This sets the sort order for the album. This applies to all current items, and any newly added items.

« default sort order » ▾ Ascending ▾ with « no preset » ▾

Apply to all subalbums

Thumbnails

Every item requires a thumbnail. Set the default size in pixels here.

150

Use this thumbnail size in all subalbums

Adding Photos

To add photos in an album, navigate to the album and click "[[add photos](#)]". You can now browse your computer and upload photos, adding an optional caption with each image. You can also change the number of file upload boxes displayed by using the select box. Click "Upload Now" or "Submit URL or directory" and you're on your way.

Add Items

From Web Browser
From Web Page
From Local Server

Upload files directly from your computer. Enter the full path to the file and an optional caption.

Note: You can upload up to 11 megabytes at one time. No individual file may be larger than the files separately, use a different upload format, or ask your system administrator to allow.

Thumbnails

Gallery can create thumbnails at upload time, or create them the first time you want to see it, but if you create them at upload time it makes viewing albums for the first time go faster

Create thumbnails now

Editing Item Properties

Each item (photo) in Gallery has a list of properties that can be edited.

Edit Text -- Edits caption, description, keywords, and other custom fields defined for the image

Rotate/Flip Photo -- Self-explanatory, rotates or flips the photo. Rotate can be done in 90 degree increments.

Highlight Photo -- Use this photo to represent the album

Move Photo -- Move the photo or group of photos (i.e. position in an album or to another album)

Making Comments

If you didn't make a comment at the time you uploaded your photo then login again and under each picture click on the drop and choose [\[Edit Title\]](#).

Full Time Assistance

If you have any problems, feel free to contact me and I'll help you upload your photos. I'll also load all of your photos for you if you wish. Just email the photos to me and tell me the State your from. Give me some comments on each picture if you want it posted.
